$\sigma_Y$
Mittelspannung $\sigma_m$ in MPa
zulässiger Bereich ($N = 10^7$, $A_{WL} = 1$)
statische Grenze $\sigma_{stat}$ = 59,6 MPa
Goodman-Gerade: $\sigma_W$ = 20,0 MPa, $\sigma_Y$ = 89,0 MPa, $M$ = 0,225
Spannungsverhältnis $R = -\infty$, −1, 0
